DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
3. The claims are generally narrative and indefinite, failing to conform with current U.S. practice. They appear to be a literal translation into English from a foreign document and are replete with grammatical and idiomatic errors.
4. Claims 1 and 2 include German words in parentheses.
5. Regarding claim 1, the phrase "and/or" renders the claim indefinite because it is unclear whether the limitation(s) following the phrase are part of the claimed invention.

Specification

6. 35 U.S.C. 112, first paragraph, requires the specification to be written in "full, clear, concise, and exact terms." The specification is replete with terms which are not clear, concise and exact. The specification should be revised carefully in order to comply with 35 U.S.C. 112, first paragraph. Examples of some unclear, inexact or verbose terms used in the specification are: German words in parentheses (throughout the specification); "braking-out" on page 2, line 4.

Claim Rejections - 35 USC § 102

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 1731

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

8. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chui (US 3930825). The features of applicant's claims can be found in the abstract, col. 2, lines 26-47, col. 3, lines 31-46 and col. 3, line 54 to col. 4, line 6.

9. Claims 3 and 4 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Chui '825. The products claimed are identical to the products disclosed Chui: abstract, col. 2, lines 26-47, col. 3, lines 31-46 and col. 3, line 54 to col. 4, line 6.

Conclusion

10. The prior art made of record and not relied upon is cited to further show the state of the art.
